

# Revolutionize Your Water Flow

**Proven Savings for Homes, Businesses & Irrigation**

**Stop paying for air!** The patented water valve saves 15–25%+ on water bills by compressing air bubbles in your meter, stabilizing pressure, and preventing surges, all while conserving water and protecting your plumbing. Easy plumber install, external adjustment, NSF-certified, and backed by a 10-year warranty.

## KEY BENEFITS:

- **Save 15–25%+ on Water & Sewer Bills** – Compresses entrained air so meters charge only for real water
- **Eliminates Surges & Protects Pipes/Fixtures** – Smooths flow for longer equipment life
- **Easy External Adjustment** – Fine-tune even while water is running – no plumber needed later
- **Fast Payback** – Often 6–18 months; real customers report \$50K+ annual savings on large properties
- **Eco-Friendly & Certified** – Conserves water in showers, irrigation & more; NSF-certified
- **Simple Installation** – Plumber installs on your side of the meter in under an hour
- **Over 30,000 Installations**

At Innovate Real Estate, **we help property owners, apartment managers, commercial operators, and irrigation pros** cut costs and boost profitability with this patented water valve — far beyond basic water savings.

Our patented device optimizes flow, compresses air to eliminate meter charges, and protects against surges for 15–25%+ reductions in water/sewer bills.

We partner with you to:

- **Minimize expenses** with fast payback
- **Enhance cash flow**
- **Build long-term sustainability**

We know water challenges. We know flow dynamics. We make both work harder for you.
